

AHCCHM304 Transport and store chemicals

co-assessed with

AHCCHM307 Prepare and apply chemicals to control pest, weeds and diseases

2 Days face to face

Introduction

New Territory Training is a Registered Training Organisation (RTO number 45776) registered with the Australian Skills Quality Authority.

New Territory Training is proud to offer training in the unit of competency AHCCHM304 Transport and store chemicals co assessed with AHCCHM307 Prepare and apply chemicals to control pest, weeds and diseases as nationally recognised training with the option of AusChem chemical accreditation to successful participants.

Learners will understand how to transport and store chemicals safely, alongside the skills and knowledge to prepare a chemical plan, and apply chemicals to control a pest, weed or disease problem in your workplace safely, minimising environmental impact and reducing potential for drift and off target damage. The training will include sufficient time to allow learners to practice transport, store, prepare and apply chemicals prior to their assessment.

This course is aimed for people in the construction, parks ranger, horticultural, agricultural, nursery and mining industries. This course is essential for people who are required to transport, store, prepare and apply chemicals to control a pest, weed or disease in your workplace.

Mode of Delivery

Delivery of this course will be trainer led and delivered over two days of face-to-face training in a classroom setting combined with skills practice and assessment in your workplace.

Assessment Summary

Course Description

This course provides learners with the skills and knowledge required to safely transport and store chemicals, alongside preparing and applying chemicals to control pests, diseases and weeds in the workplace.

The assessment in support of the unit of competency requires the learner to complete a written knowledge assessment and then demonstrate their applied knowledge and skills during a practical assessment transporting, storing, preparing and applying chemicals to control pest, disease and weeds and observed by the assessor.

The learner must answer all the written knowledge questions correctly. There is the opportunity for this knowledge assessment to be conducted verbally if the learner requires this level of support.

The practical assessment is conducted under controlled conditions in your workplace. The learner will be briefed on the assessment which will involve carrying out transporting and storage activities of chemicals according to regulatory and workplace guidelines, preparing an application plan, selecting chemicals to control the pest, disease or weed problem in your application plan according to regulatory and workplace regulations and guidelines, whilst monitoring workplace hazards and communicating with others in the workplace.

National recognition

On successfully completing the training and assessment you will be issued a Statement of Attainment issuing you the unit of competency: AHCCHM304 Transport and store chemicals co-

assessed with AHCCHM307 Prepare and apply chemicals to control pest, weeds and diseases.

This unit of competence is nationally recognised and provides individuals with a valuable outcome that is recognised throughout Australia.

Course Commencement Dates

Courses dates and times do vary. Please contact us for scheduled course dates. Call on:

0412142561.

Course Duration and Location

The course is delivered over two days. Training is delivered at your workplace.

Course Materials
